

Dunn Company Plant - Decatur, IL

Services:

## Construction Materials

### Asphalt Mixes

Dunn's expertise in formulating a variety of asphalt mixes mean flexibility on your project. Our on-site plant has the capacity to handle large and small jobs. Our quality control lab can produce cold mixes, emulsion mixes and hot mixes to the specifications you need.

### Aggregate Material

As a leader in the recycled materials industry, Dunn is pleased to note that Full Depth Recycling is one of the fastest growing rehabilitation techniques being specified by pavement engineers today. By using this recycled material for your base aggregate needs, you'll lower the cost of your project and increase the speed of construction and the strength of the pavement.

For more information on these materials, contact Mark Stahl at **217-429-4444**.
